SUMMARY

Highly motivated and detail-oriented web developer for designing, developing, and maintaining responsive and user-friendly websites. Proficient in HTML, CSS, JavaScript, and modern frameworks like React and Node.js.
Seeking an opportunity to leverage my skills in front-end and back-end development to contribute to innovative projects and create exceptional digital experiences for users

PROJECTS

Hotel Booking System
Developed a full-stack hotel booking platform that allows users to search, view, and book hotel rooms with secure online payments. Implemented user authentication, dynamic room availability, and admin dashboard for managing rooms, users, and bookings. Integrated Stripe for real-time payment processing

Password Management System
Developed a secure password management web application that allows users to store, encrypt, and manage passwords for multiple platforms. Implemented user authentication and password hashing using Bcrypt. Designed an intuitive dashboard with React and Material UI for seamless user experience.

Airbnb Clone
Builts the backend for a full-featured Airbnb clone supporting property listings, user authentication and booking management Designed RESTful APIs to handle CRUD operations, secure login/register flows, and real-time availability checks. Designed Frontend Using Ejs.

EXPERIENCE

MERN Stack Intern
Mission Minded Foundation, Jaipur   (Jan 2025 - Present)

- Built and deployed full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**
- Created dynamic REST APIs with Express and integrated them into the frontend via Axios
- Implemented user authentication and password hashing with **bcrypt**
- Designed responsive UI components using **Material UI** and **React Hooks**
- Worked with **MongoDB Atlas** for cloud database storage and **Postman** for API testing
